These are your student scores. Please view the text below for a description of the new STAAR performance labels.

What do the new STAAR performance labels mean?

APPROACHES GRADE LEVEL (formerly known as Level II: Satisfactory- *passing*)

Performance in this category indicates that students have passed the assessment and are likely to succeed in the next grade or course with targeted academic intervention. Students in this category generally demonstrate the ability to apply the assessed knowledge and skills in familiar contexts.

MEETS GRADE LEVEL** (formerly known as Level II: Final Standard)

Performance in this category indicates that students have met a higher standard than passing and have a high likelihood of success in the next grade or course but may still need some short-term, targeted academic intervention. Students in this category generally demonstrate the ability to think critically and apply the assessed knowledge and skills in familiar contexts.

MASTERS GRADE LEVEL* (formerly known as Level III: Advanced)

Performance in this category indicates that students have met a higher standard than passing and are expected to succeed in the next grade or course with little or no academic intervention. Students in this category demonstrate the ability to think critically and apply the assessed knowledge and skills in varied contexts, both familiar and unfamiliar.

DID NOT MEET GRADE LEVEL

Performance in this category indicates that students did not pass and are unlikely to succeed in the next grade or course without significant, ongoing academic intervention. Students in this category do not demonstrate a sufficient understanding of the assessed knowledge and skills.
